## Up the River.

It must not be inferred by mentioning the ranches under cultivation or about to be cultivated, that there is no land to be had, but like all land taken up where irrigation is depended upon, land is first selected that water can be brought on with least expense.

Adjoining Mr. Geo. Scott's place on the west side of the San Pedro and under the same ditch is the ranch of Messrs. D. C. and W. C. Sellick, with good corn crops and some thirty acres of alfalfa.

Adjoining them on the same side comes the government's wards, Eskin-in-zin and followers, with about 640 acres, equally divided on both sides of the river, not over 20 acres of corn and some melons were raised by the Indians this year.

Mr. Geo. Fusch has in the charge of Mr. Henry Feltman, a practical farmer. There is more alfalfa to be seen here than on any other ranch in that section.

The ranch of Mr. Geo. F. Cook, has an ever flow of water which adds to its importance, as well as being located near the mouth of the Aravaipa creek, affording good water facilities. Good crops of corn, onions and cabbage have been raised this year. Some 20 acres of alfalfa is on the place and more will be put in.

South of Dudleyville and adjoining the ranch of Mr. Thos. Bates, The mesquite timber is very heavy, requiring all of Theodore's energy to remove. So far a fine fence has been built around a portion and a dwelling house commenced. Mr. Bates has received from the Dudleyville school another term. A better selection could not have been made.

Mr. Peter R. Young and sons have fine land near the above ranch, with comfortable houses and fair crops.

Among the most practical and well-to-do ranchers on the river, Oliver and Lucien Swingle come next, with 160 acres each, with their land under good fences, partly sown to alfalfa, good crops of corn, and large stacks of hay ready for the stock.

J. V. Vickers, a one-sixth int. in Democrat mine, Bunker Hill dist., con. \$5.

Jere Fryer, Sheriff, to J. D. Thomas, north 1/2 of lot 108, Florence townsite, con. \$10.
